Science Icebreaker: What Am I?

This is a fun icebreaker to play with students on the first day of school. This can also be used at the end of a science unit for students to practice vocabulary terms.

1. Tape index card with word on back of each student. Examples are given below.
2. Tell students that each word is a noun.
3. Students go around asking a one yes/no question per person. Example: "Am I an animal?"
4. First person to say their word wins!
5. You can also keep students playing until everyone has guessed their word. Students will sit down as soon as they figure out their word.
