

Activity 3.1 What do you know about DNA and genetics?

What do you know?

1. What do the images show?
2. How do they relate to the topic?
3. What else do you know about each of the three topics?

What do you know about DNA?

What do you know about genetics?

What do you know about gene technology?

What's your opinion?

- As you think about each issue, complete the following table in your Notebook. Try to list two or three positive and negative aspects for each issue. Are you for or against the issue raised in each stimulus question?

Issue	Positive aspects	Negative aspects	Stimulus question	Agree or disagree with stimulus question?
Gene testing			Should gene testing be freely available under Medicare to everyone?	
Designer babies			Is it right to choose the features of a baby?	
GM crops			Should Michael be allowed to grow GM crops?
